Jhe Grandeur That ome

OME-with its splendor, its wealth, and its huge cosmopolitan population - degenerated because its rich men failed to recognize the supreme power of the home. Thousands of strangers came to Rome to see its wonders; but returned to their HOMES in other lands. The citizens, who formed the backbone of Rome's power, were either so crushed by poverty that their homes were mockeries, or they were so loaded with wealth that they desecrated their homes with orgies and extravagance. The inevitable result was the fall of Rome.

The greatness and permanence of a city is in its HOMES. When you walk or drive through the residential sections of Tulsa, picture each house as the link in a giant chain. The more links, the farther the chain will reach, and the greater will be Tulsa's influence.

We offer Tulsans an opportunity to help strengthen this chain of civic strength, with profit to themselves, in the form of Real Estate Savings Bonds and City Mortgages on Tulsa Property. Six per cent Real Estate Savings Bonds secured by First Mortgages, can be bought in amounts as low as \$50 and 8% City Mortgages, 1- 2- 3- and 4-year paper as low as \$500, with interest semi-annually. It will profit you to discuss with us, in our Investment Department of the Trust Company, the advantages of investing money in Tulsa securities.
